# IPN's Registrar Network

At IPN, we wholeheartedly believe in fostering a culture of shared learning. We believe that our Doctors can learn and thrive in a holistic way and that training and education should be done not just through the GP Supervisor, but through every member of the team. IPN's focus is to invest in our current Supervisors to ensure the best Doctors are trained for the future, and to engender a culture of teaching and knowledge sharing in all of our practices.

Be in the best of health with IPN, now, and in the future.

**Dr Anelisa De Souza**

Kingborough Medical  
Centre, TAS

“If a GP is looking to work with IPN, I’d say come work with us, because we have professional team that will support you all the way. Due to the support that I get from IPN staff, management and colleagues, I can provide my patients with the best of health.”

“IPN has a reputation for being very Doctor focused, and since partnering with them, I have found this to be true. The staff manage my bookings, run the practice and take care of all of the administration, so I can focus on the clinical side with my patients. IPN has a lot of experience in medical management and offers flexibility, support and a great lifestyle. I would recommend IPN to my colleagues looking to focus more on patients and not on the burdens of the business side of practice management.”
