

Introducing an Observational Study on MediCabilis

Date: 25/09/2020

Dear Sir / Madam,

Macquarie Medical Centre IPN is participating in an observational study to evaluate aspects of medical cannabis treatment in patients attending this clinic.

You will find a Participant Information Sheet describing the study in some detail. Please read this before attending your next medical appointment at Macquarie Medical Centre IPN. You may want to discuss taking part in the project with your family or carer. Your doctor will offer you the opportunity to take part in the project at that time.

Please note that taking part in the study is completely voluntary, and that you will continue to access treatment at the clinic irrespective of whether you take part in the project.

Please feel free to discuss the project with the clinic staff and your doctor at any time.

Yours Sincerely,

Dr. Yan Ren
